Subject: Confidential - Groundwater Flow Map - March 2019 - Former Amphenol Facility
Attachments: 2019-03-07 Draft Amphenol Potent Map.pdf

Carolyn,

As requested in our meeting last week, please see the attached draft groundwater flow map generated from the data collected during the gauging event on March 7, 2019 of the existing temporary and permanent monitoring wells.

The groundwater data suggests a south to southeasterly flow direction, consistent with historical groundwater flow at the site.

Please let me know if you have any questions or concerns.

Regards,
Chris
